

## What is Lego Club?

**Lego Club** is a weekly club which involves building LEGO models in a group of 2 or 3. As part of the group, you will be able to take on different roles and work together.

You will be able to try roles, including:

- **LEGO Engineer**
- **LEGO Supplier**
- **LEGO Builder**

### **Why have I been chosen for the group?**

You have been chosen for the group because your teachers think that you would really enjoy being part of a group focussed around LEGO!

### **Who else will be in the group?**

There will be other young people from within your school in the group. Some you might know and others you might not. The group will be run by the same member of staff each week.

### **When and where will the group happen?**

The group will take place in a room within your school once a week for 20 minutes.

### **How long will I be in the group for?**

Groups normally work together for 6 sessions.

### **What if I don't want to be part of the group?**

It is your decision whether you want to be part of the group and you can tell your parents/carers or teachers if you don't want to be part of the group. It is also ok if you join the group but then change your mind and no longer want to be in it.
